

Agenda - 5th of March, 2026

visit

10:00 - 10:15

Welcome Coffee
[Bio4Dreams](#)

10:15 - 10:30

Mind & Bio4Dreams presentation

10:30 - 10:45

Rubik Hub Presentations & Cohort Startup Overview

10:45 - 11:00

Q&A

11:00 - 11:15

Facility tour

11:15 - 12:00

Networking

Startups

AnimaFelix.com (Romania) - Ease your anxiety using the Anima Felix app.

Argus AI (Moldova) - Taking surgery to the next level with AI and Mixed Reality.

BariMetriq (Moldova) - AI-embedded clinical operating system that supports longitudinal obesity and metabolic care across GLP-1 therapy, bariatric surgery and lifestyle pathways.

Cortiscope AI (Romania) - Physics-informed and biologically aware AI models for medical imaging for automated segmentation, that run on CPU, delivering Millimeter native measurements, while being organ-agnostic and explainable.

CuraMe (Italy) - A simpler way for patients and doctors to manage care with smart AI support.

GlucoseDAO (Romania) - Lets you control your glucose, not your glucose control you.

Lumnora (Italy) - Unlocking precision medicine through extracellular vesicle analysis.

Misslaboratory (Lithuania) - Next-generation platform for quantitative hormone testing from a single drop of blood - in minutes.

MShield (Ukraine) - Drugs that stop cancer before it spreads.

Selftalk (Moldova) - AI-powered therapy & coaching plans for teams.

SkyEu (Italy) - Building automatic eVTOL drones for first aid and medical deliveries, to save 400,000 people in the EU from time-critical emergencies.

ViaCommuna (Switzerland) - The digital companion across the stroke journey for the entire family, covering education, therapy, and network.

Vitalos (Romania) - A personalized health and wellness platform that empowers individuals to optimize their vitality and enhance sports performance through regular blood biomarker analysis.

VR Revive (Ukraine) - Virtual first aid training simulator for schools with assessment of both individual and collective progress.
